

Lawton High School 2007-2008 Test Results

You may recently have seen High School Scores in the newspaper. As these were inaccurately reported, please take a moment to examine the scores below and see the progress our students have made at Lawton High School.

Lawton High School continues to strive to raise standardized test scores while offering a full curriculum for college and workplace readiness. The class of 2007 exceeded expectations as the first class to exceed state average in every area of testing. This class was the final class to participate in the MEAP High School Test. Thirty-two students in this class were Michigan Promise Scholars, guaranteed \$500 toward each of their first four semesters of college and \$2000 upon successful completion of their first two years to be used toward completing a four year degree.

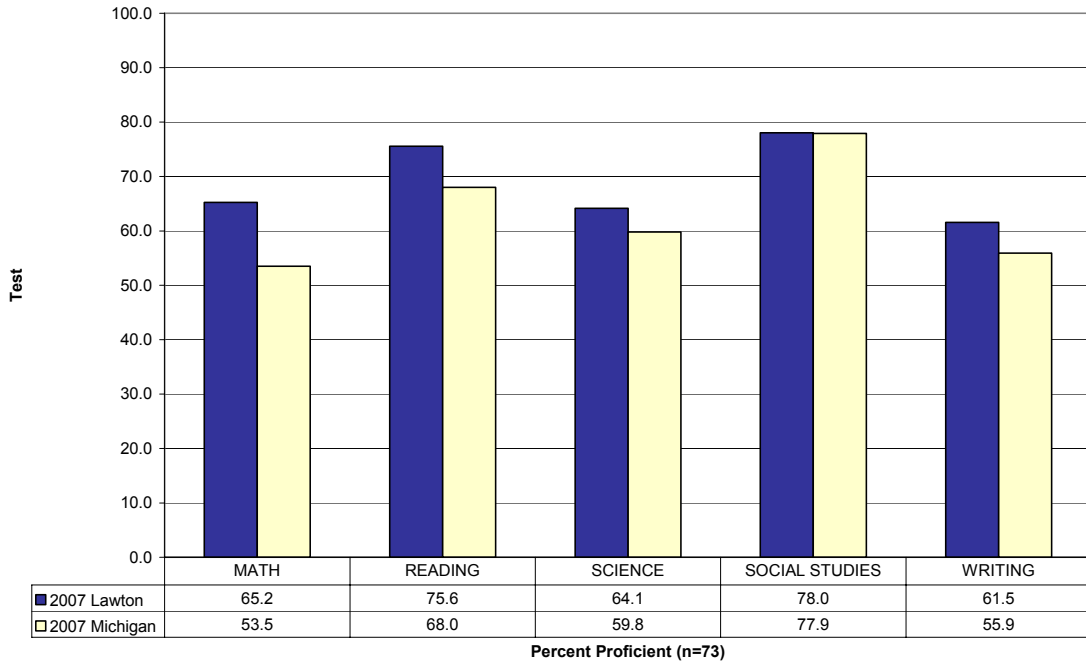

At the same time, Lawton High School Class of 2008 had the original seating of the Michigan Merit Exam (the MME). This was a demanding new test, very different from others given here in Lawton. Students worked diligently and even continued testing through a half hour blackout. Scores showed excellence in science, reading, and social studies. Additionally, those scores demonstrated our path for improvement and school wide interventions are in place to improve mathematics and writing scores. We look forward to seeing their final "Class of 2008 Scores" next fall when retakes are complete. Already, fifteen students in the class of 2008 have been named Michigan Promise Scholars and have attained their first scholarship money toward college. Retakes will begin in Fall 2007.

Parents and community members who have questions about standardized testing in Lawton, the Michigan High School Test, or the Michigan Merit Award can contact Tamara Webster, Curriculum Director at (269) 624-7542 twebster@lawtoncs.org

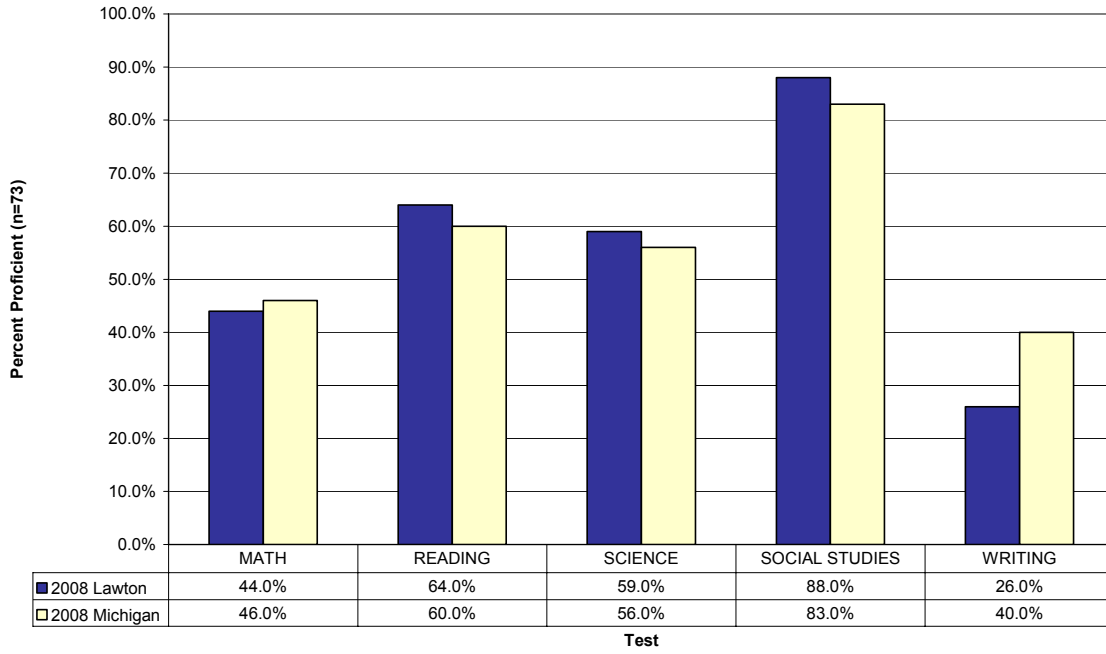

We applaud the hard work of all of our students as they, with the support of their families, pursue their dreams and prepare for work and higher education.

Go Blue Devils!
